Saturday

July 7, 1935

Dear Mr. & Mrs. Johnson:-

I had Joorna
as my writing伴 for me last
Saturday. I trust you received it
Sunday morning as usual. I
had to go over to Muskogee to
take care of a matter last Saturday
morning so I could Joorna along.
I think she enjoyed it more than
she would have staying at home
by herself. I took over a case
over there some time ago. I do

other side asked for a new trial
which I succeeded in having
denied. I had planned on taking
Joanna outside with me before
I made the trip to Chicago. I
probably would have taken her
to a playground if I had known
~~before hand~~ that we were going
to Chicago. I would write
of my trip to Chicago by I
understand Joanna took care
of that in her letter to Virginia.

As far as Joanna gets through
with her teaching of the
Symphony I think she will
be home to you for about a
week. I think she wants to

To the other day she said
she was getting homesick
of Pine Gulf. It will probably
be around the first of August
before she can get away. You
can just trust her like homefolks
or she doesn't like any fuss
to be made over her. She
came get her mule she's ready
to come home.

I got a little light a 4th.
Jonna didn't like it very much.
It's the first time I've had ~~but~~
her. I should have ~~had~~ a ^{had}
done. I don't misbelieve often
anyone. It seems to hurt Jonna

This so sensitive and does not rest
so much.

It has been quite warm
here this week, but fortunately
the nights have been cool. I
guess the moon weather has
been good for the cotton. I
judge that the crop is safe
this year because of the rains and
cool weather. What cotton they
have in this state is late. So far
it has been ruined but
the winter crop was excellent

Give my love to all the family. Kiss
Well and tell for me. Tell Virginia I
hope she gets well soon. Most love to
you your devoted son

Robert
